TRUMBULL COUNTY

UPCOMING PROJECT INFORMATION TRUMBULL COUNTY ENGINEER PLANS RESURFACING ON COUNTY LINE ROAD AND WEST WEBB ROAD IN WEATHERSFIELD TOWNSHIP

PID: 117409/117411

Trumbull County Engineer, Randy Smith, in cooperation with Weathersfield Township, proposes to improve County Line Road and West Webb Road in Weathersfield Township, Trumbull County, Ohio. The project proposes to mill and resurface approximately 1.56 miles of County Line Road from State Route 46 to Four Mile Run Road. Additionally, the project proposes to mill and resurface 0.69 miles of West Webb Road from Depot Street to the Mahoning County Line. Additional work includes the replacement of three (3) culverts, located on County Line Road between State Route 46 and Carver Niles Road, located on West Webb Road between Depot Street and State Route 46, and located on Carver Niles Road at the intersection of County Line Road. The project also proposes partial-depth pavement repairs, reconstruction and installation of several catch basins with associated storm sewer pipe and the application of edge/center/stop lines and other pavement markings throughout the newly paved sections of County Line Road and West Webb Road. This \$1,081,500 project is scheduled to begin construction in the spring/summer of 2025.

During construction, traffic will be maintained at all times on County Line Road and West Webb Road, except when it will be necessary to close County Line Road and West Webb Road for a maximum of fourteen (14) consecutive days during the replacement of each cross culvert. The official detour route for the closure of County Line Road will utilize State Route 46, Ohtown McDonald Road, Salt Springs Road and Carver Niles Road. The official detour route for the closure of West Webb Road will utilize State Route 46, and Depot Street. These closures will not occur simultaneously. No road closures are anticipated to replace the small diameter culvert on Carver Niles Road at the intersection of County Line Road. Construction, lane restriction, road closure/detour information will be posted along County Line Road, West Webb Road and all intersecting side roads and on the Trumbull County Engineer webpage, <http://engineer.co.trumbull.oh.us>, prior to the start of construction activities. Access shall be maintained to all adjacent properties, businesses and intersecting side streets within the construction limits for the duration of the project.

While the proposed project will not result in any substantial impacts to environmental resources, Trumbull County Engineer, Randy Smith, is seeking any comments the public may have regarding the proposed project. Project-related issues the public may wish to comment on include, but are not limited to, the effect of the project on residents, the local economy, historic or cultural resources, etc.

Any questions or comments concerning the environmental impacts and/or the proposed project should be directed to Mr. Gary W. Shaffer, P.E. by September 19, 2024, at the Trumbull County Engineer's Office, 650 North River Road N.W., Warren, Ohio 44483 or 330-675-2640.
