TRUMBULL COUNTY ENGINEER
650 NORTH RIVER ROAD N.W. WARREN, OHIO 44483

FOR IMMEDIATE RELEASE: DECEMBER 12, 2018

TRUMBULL COUNTY
UPCOMING PROJECT INFORMATION
TRUMBULL COUNTY ENGINEER PLANS INTERSECTION IMPROVEMENT AT EAST MARKET STREET AND NORTH ROAD IN THE CITY OF WARREN & HOWLAND TOWNSHIP

PID: 102541

Trumbull County Engineer Randy Smith plans roadway improvements on East Market Street and North Road in the City of Warren and Howland Township, Trumbull County. The proposed project begins approximately 450 feet east of the intersection on East Market Street and approximately 675 feet north of the intersection on North Road. The purpose of this project is to improve safety, reduce congestion, and meet increasing traffic volume demand along East Market Street and North Road, while addressing sidewalk and drainage deficiencies.

The project proposes the installation of an exclusive right-turn lane from westbound East Market to northbound North Road and extension of the existing southbound left-turn lane to eastbound East Market Street. Additional improvements include widening existing North Road lane widths to meet current standards, traffic signal upgrades to account for the new lane configurations and to optimize signal phasing and timing, curb and sidewalk replacement, new sidewalk, curb ramp upgrades to meet Americans with Disabilities Act (ADA standards, drainage system improvements, partial waterline replacement, driveway apron reconstruction, application of approach pavement markings and new traffic signs. Project construction cost is currently estimated at $640,475.

Access to all residences, businesses, and properties within the construction limits will be maintained at all times during construction of the project. During construction, a minimum of one lane of traffic will be maintained in each direction along East Market Street and North Road at all times. Signage, drums, and cones will be used to help guide motorists through the work zone. Detailed construction and lane restriction information will be posted along East Market Street and North Road and on the Trumbull County Engineer webpage, www.engineer.co.trumbull.oh.us prior to the start of the project construction.

To ensure the decision-making process is comprehensive, Trumbull County Engineer, Randy Smith is seeking comments from the public about the social, environmental and economic impacts of this proposed project. Environmental impacts include those involving archeological, architectural and ecological resources, regulated materials, and the general location of the project. The Trumbull County Engineer also requests information regarding the presence of any known cultural resources in the vicinity of the project including prehistoric and historic archeological sites, historic bridges, historic buildings, landmarks and districts.

Any questions or comments concerning the environmental impacts and/or the proposed project should be directed to Mr. Gary W. Shaffer, P.E. by January 11, 2019, at the Trumbull County Engineer’s Office, 650 North River Road N.W., Warren, Ohio 44483 or 330-675-2640.
